

Installation Guide for Play and Develop

Step 1: Make a folder and remember the name and location
(Advice: Make a folder on your desktop)

Step 2: Open Command Prompt Terminal → Open the Folder directory

-Commands:

```
cd Desktop
```

[Enter]

```
cd your-folder-name
```

[Enter]

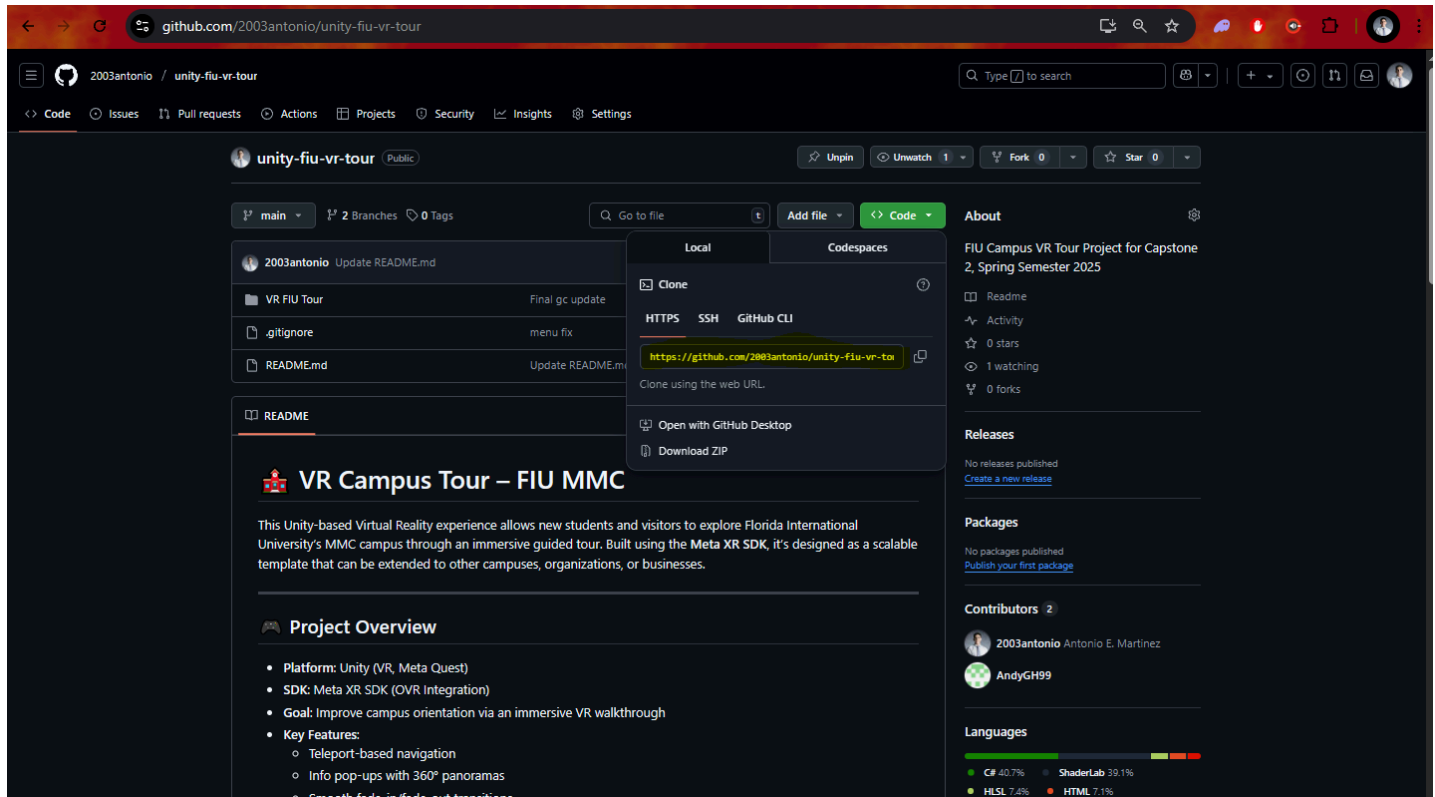

```
(c) Microsoft Corporation. All rights reserved.
```

```
C:\Users\anton>cd Desktop
```

```
C:\Users\anton\Desktop>cd VR-TOUR
```

```
C:\Users\anton\Desktop\VR-TOUR>
```

Step 3: Go to the unity-fiu-vr-tour repository and fetch the

Cloning HTTPS Link

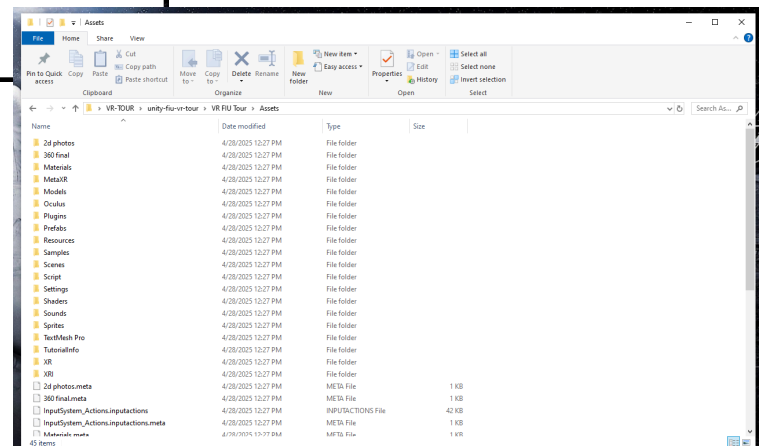

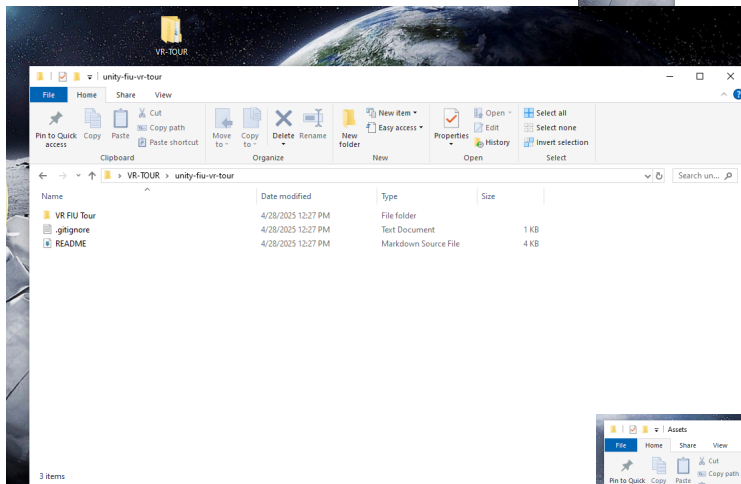

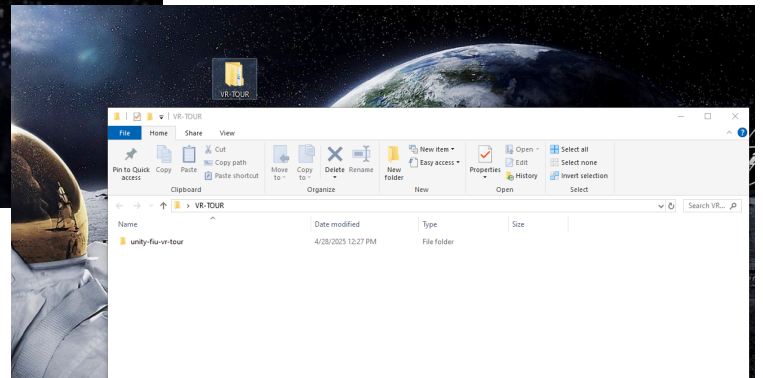

Step 4: Return back to your Command Prompt and Enter:

```
git clone https://github.com/2003antonio/unity-fiu-vr-tour.git
```

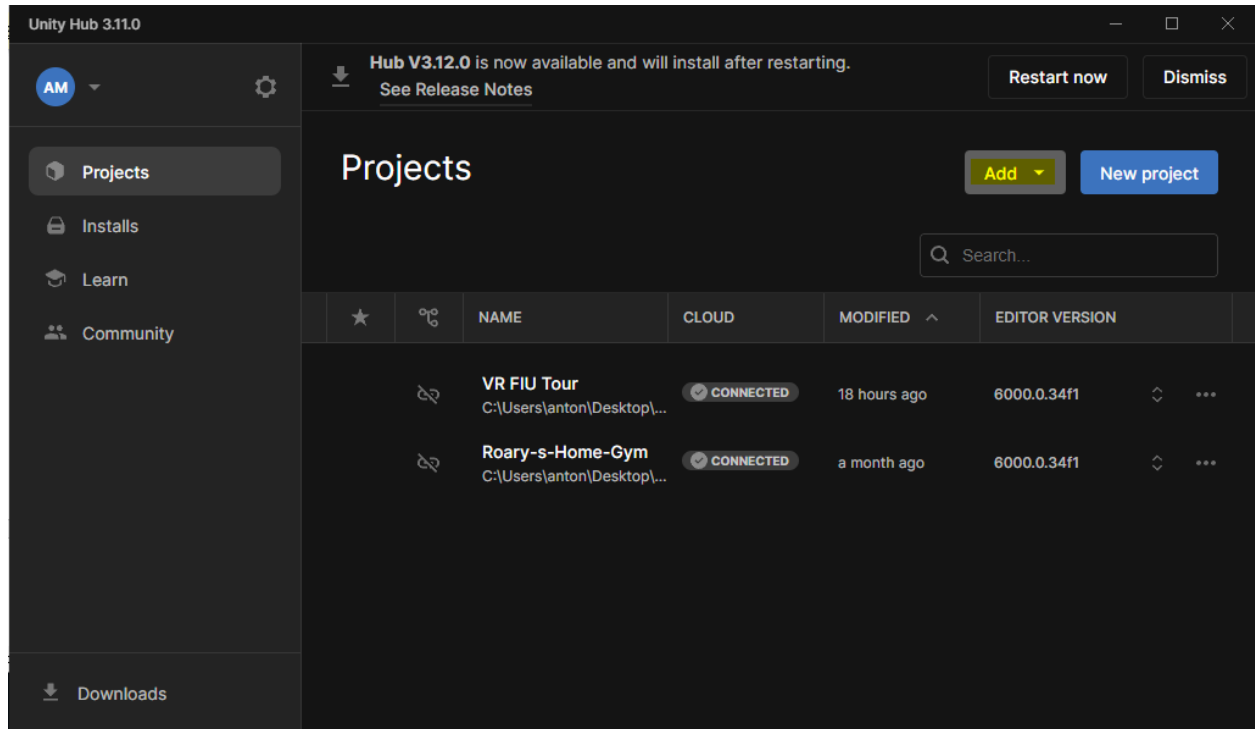

```
C:\Users\anton\Desktop\VR-TOUR>git clone https://github.com/2003antonio/unity-fiu-vr-tour.git
Cloning into 'unity-fiu-vr-tour'...

The VR Project is now downloaded locally to your computer! You should now be able to see the folder you created populated with the project files!

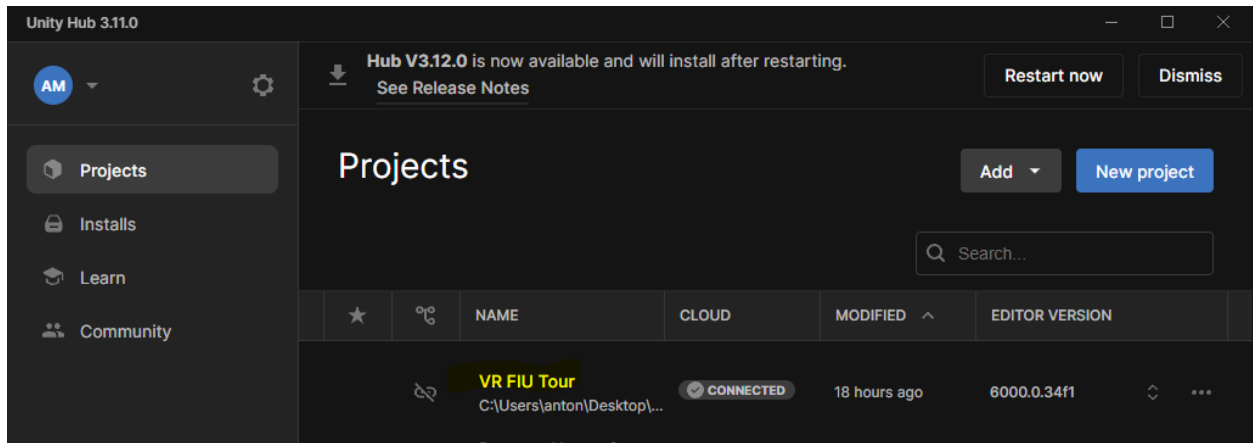

Step 5: Open Unity Hub and Add Project From Disk

Step 5: Your-Folder-Name → unity-fiu-vr-tour → VR FIU Tour [Open]

Step 6: The Project will appear under your Projects tab in Unity Hub

Step 7: Click the name and open the project!

Prerequisites:

- Unity 2022.3 LTS (or compatible)
- Meta XR SDK (via Unity Asset Store or GitHub)
- Meta Quest device + Link Cable or AirLink for testing
